

Factsheet

trans auriga International Logistics GmbH

September 2008

Company Profile

Trans auriga International Logistics GmbH is specialized for consulting, organizing and operational issues all around the project forwarding sector all over the world. We accompany the customers from selling the machinery/plant to customer over the engineering up to the delivery to the seller.

We create for each logistical challenge the dedicated all-around-worry-free package with all logistical aspect of customer. Assisted by our own specialized project communication platform "trans auriga trinity™" we get all parties involved along the complete supply chain and have the possibility to bundle sources to one point to be more efficient and transparent.

Our logistical all-around-worry-free package offers:

- Landtransportation (Standard & Oversize)
- Oceanfreight
- Airfreight
- Packaging
- Full range of value added services
